

Drive productivity and compliance with secure, integrated document imaging

eCopy™ ShareScan® for business solutions

With eCopy ShareScan document imaging software, businesses can link MFPs and scanners directly with enterprise systems to streamline the task and secure the process of capturing paper-based information to business applications. The result of this direct integration is increased productivity and greater compliance. eCopy ShareScan is highly extensible, device-independent document imaging software. The ShareScan platform architecture opens unlimited opportunities to connect any business application to any multifunction peripheral (MFP) or scanner delivering a consistent user experience every time.

Transforming paper-centric processes into electronic workflows directly from ShareScan boosts the bottom line – lower cost, reduce information risk, and accelerate business processes.

Actual MFP screen may vary on different embedded MFP platforms

What's included in ShareScan

- **ShareScan Client** - accessible to all office workers right at the scanning device – a secure, intuitive, graphical push-button interface dramatically simplifies the otherwise complex and unsecured process of transforming paper-based information into electronic form.
 - **eCopy Connectors & Services** - convert scanned document images into usable electronic documents and accelerate document distribution by linking eCopy-enabled devices with e-mail, fax and network file systems.
 - **ShareScan Services Manager** - configure and manage one or more devices running the eCopy ShareScan Client, application connectors, imaging, and document services.
 - **ShareScan Administration Console** - configure, activate, and monitor multiple ShareScan Services Managers, application connectors, and eCopy-enabled devices using the familiar Microsoft Management Console.
- ### Unlimited Integration Potential
- **eCopy Quick Connect*** - powerful, universal connector for code-free creation of semi-custom document workflows.
 - **Connectors*** - a wide library of application connectors available from eCopy or 3rd party independent software vendors. For more information about available Connectors and Services, visit www.ecopy.com/products_connectors_services.asp
 - **eCopy Connectors and Services SDKs*** - access ShareScan's powerful document imaging capabilities to build customized connectors and services to connect with any business application and automate any paper-centric process.

* Sold separately

| When Businesses need to: | ShareScan delivers: |
|--|--|
| Increase productivity of paper-centric knowledge worker processes | <ul style="list-style-type: none"> • Push-button interface at distributed devices streamlines capture, 'pushes' paper-based information into electronic workflows • Easy conversion of paper documents into formatted, compressed, named, and indexed document images |
| Effectively manage risks associated with paper documents | <ul style="list-style-type: none"> • Authenticate via native integration with Active Directory and eDirectory • Audit trails that include activity logging and document tracking • Scan to PDF/A and document encryption |
| Integrate a wide range of capture devices to multiple business systems | <ul style="list-style-type: none"> • Frees imaging solutions from device-dependence • Open architecture enables real-time integration with ECM, ERP, CRM, HRIS, case management, financial services and other business applications • SDK and Quick Connect functionality eases integration |
| Implement solutions that require little training and are easy to support | <ul style="list-style-type: none"> • Intuitive graphical user interface • Consistent user experience across all MFPs and scanners • Central administration console |

Available Configurations

Multiple configuration options are available to support a wide range of user and group settings. Deploy solutions on embedded MFPs or on PCs connected to scanners or MFPs. Optional ergonomic desk and floor mount scan stands with color touch screen and QWERTY keyboard are available for kiosk / shared use installations.

Device compatibility

ShareScan is compatible with a broad range of MFPs and ISIS scanners. For the latest supported platforms for ShareScan, please visit:
<http://www.ecopy.com/support/platforms.htm>

eCopy server requirements (required for embedded MFPs)

- Windows™ Vista™ Business and Enterprise Edition
- Windows XP™/2000/2003
- 512MB memory recommended
- Intel® Pentium® PC (2.0GHz)
